Wholesale
Price List
:: 1901 ::

113-115
East Kinzie
Street
Chicago, Ill.

We issue no retail list and have no retail store.
We sell only to the trade.

PRESENTING THIS, our Wholesale Trade List for 1901, we extend to you our congratulations on the successful year just closed, and we hope the new year may bring to you an even greater degree of prosperity. The Seed Trade of the country is in a better condition than for many years past. For three years the crop yield has been small, and the surpluses of former years have been completely cleaned up. Staple lines of seeds are in light supply, and are consequently in sharp demand. The general business of the country is good. Farmers are enjoying a greater degree of prosperity than for many years, and with better conditions prevailing among all producing classes. The demand for seeds for the garden and farm will undoubtedly be larger than for some years. Early buying is advised, as many items will be hard to get from first hands if you delay until later to provide for your season's requirements.

Our stocks are fairly complete, and a careful reading of the following pages will convince you that our prices are not only lower than some others, but as low as seeds of a high quality can be grown for.

We thank our patrons for their cordial support in the past, and it will be our endeavor to let the high character of our seeds and our prompt and careful service be our recommendation for the future.

We are in closer and more rapid communication by freight to all points in Illinois, Iowa, Indiana, Wisconsin, Michigan and Ohio than any other exclusive Wholesale House in the trade.

We solicit your orders.

THE GOODWIN-HARRIES CO.

GOODWIN-HARRIES
=====COMPANY=====

... Wholesale Price List ...

OF
Garden Seeds

.. 1901 ..

Terms of Sale, June 1, 1901

Subject to demand draft when due.

A discount of ONE per cent per month for unexpired
time allowed for Cash.

The prices named herein are subject to change without notice,
and we are not bound as to quantity. Orders will be
filled at lowest prices the market warrants on
day of receipt of order. Firm quota-
tions made when desired.

... NOTE ...

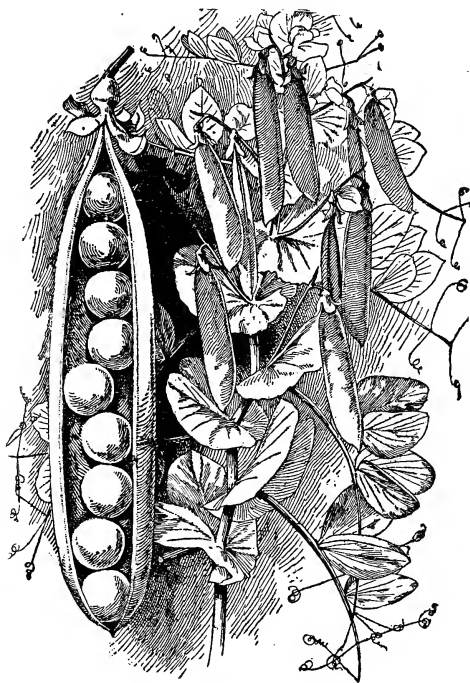

*Parties wishing to order by Telegraph,
please use Code adopted by the Ameri-
can Seed Trade Association*

While we exercise great care to have all seeds pure and
reliable, we do not give any warranty, expressed or implied,
and are in no respect responsible for the crop.

THE GOODWIN-HARRIES CO.

ONIONS—American Varieties.

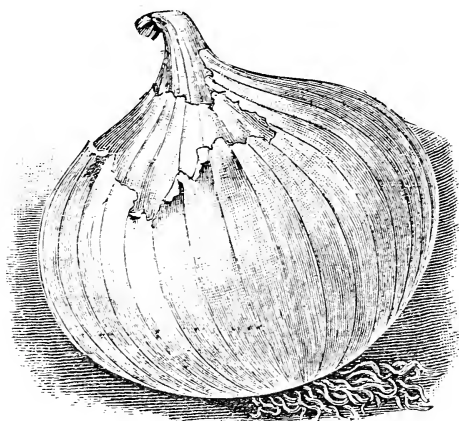

BRONZE KING ONION.

It is seldom we advertise so-called novelties, for many of them have no real merit and only live a year or two at the most. But in offering for the first time our *Bronze King Onion* we positively declare, after two years of successful experiment with it under all conditions, both favorable and unfavorable, that we have the best and most profitable and the most practical onion for the family or market garden, or the set-grower, in existence today.

Onion growers know how hard it has been to get an *Early Onion*, and at the same time one that would be a *good keeper*. Our BRONZE KING ONION is positively the *earliest of all*—fully a month earlier than the ordinary sorts and will *keep longer and better than any other onion grown*. It is of beautiful form, mild flavor, and rich yellow bronze color, and will outsell in the market any of the older varieties. Try this onion on our recommendation. Splendid size, globular in shape, pure white flesh are other of its characteristics. It is the best onion for sets in the market.

The other varieties listed below are offered with the utmost confidence in the purity and superior quality of the several strains.

We have given a great deal of care and attention to this item for the past several years, and the result has been that we have retained, year after year, our largest and most critical buyers. Much of this stock is grown on our own land, specially prepared with the view of producing the highest quality of this important product. The crop of good seed is not large and you should fill your requirements at once.

--------------------------------	-----

RADISH.

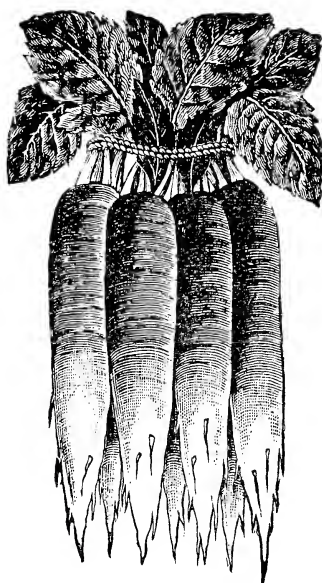

The varieties we list under this heading are exclusively American grown, and after four years of trial by some of the most critical producers of this important vegetable we are warranted in recommending it above any imported seed from the best houses of Europe.

The seed is more perfect in form, brighter in appearance, of higher vitality, and produces a more perfect vegetable.

The crop is decidedly short in many of the leading varieties. Our prices are low for the season.

TOMATO.

A little tomato goes a long way in the garden. Poor and cheap seed is absolutely valueless. We only grow and handle the very choicest varieties, and those best adapted to the home garden, where the best results are expected with the least labor possible.

Our stocks of this seed are of Private growth, and the first and second pickings only are used for seed.

White —Pure white; notched at top of standard.	.20

Varieties marked with an asterisk () are of finest form and largest size.

... The Home Lawn ...

HERE are but few things which, at small expense, add so much to the appearance of a home as a well-kept lawn. In order that it may add materially in beautifying the place, it is not necessary that the lawn be either large in area or elaborate in design. It may be very small and very simple, yet if it is kept clean and the grass short and even, it will greatly add to the attractiveness of the home to which it belongs. Such a lawn almost anyone can have simply by taking care of it. The beauty of the lawn itself, to say nothing of the improved appearance of the place, will pay most liberally for the little time and labor required to keep it in good condition.

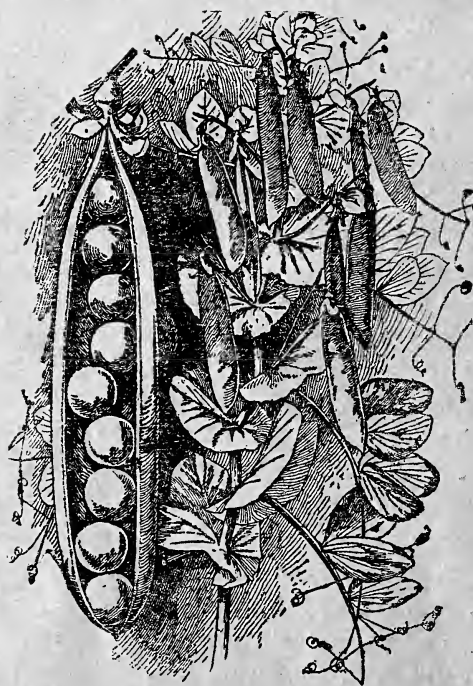

Every merchant in every town can sell quantities of lawn seed if they would simply let their customers know they always carry this item in its season, and that the seed they have is **SEED, NOT CHAFF**. Our **IMPERIAL LAWN GRASS MIXTURE** is carefully prepared and contains the right proportion of all the Domestic and Imported fancy grasses, and is **COMPOSED OF SOLID SEED** that **GROWS**. Our prices are always the lowest. Our **IMPERIAL MIXTURE** is the finest combination in the world, and will please the most critical trade. One pound will cover 600 square feet.
